About Masonlite Multimedia, MMedia, Dubai Masonlite Multimedia was formed in 1996 in Dubai, United Arab Emirates, to distribute high-end audio & video products for professional users throughout the Middle East. The philosophy behind the formation of the company was simple: to source state-of-the-art digital information delivery systems from around the world, like touch screen systems, touch screen kiosks, LCD displays, digital public systems, retail touch screen systems, for a client base of discerning system integrators, and thereafter to provide the highest level of support. As MMedia are the authorised agent for each manufacturer we represent, all countries in the Gulf region, Middle East, are provided with full marketing, technical and after-sales support directly from Dubai.
