At Smokey's, what you are about to enjoy took years to create. We paid careful attention to quality and the authentic flavors of true American BBQ from making our own BBQ sauce, dressings and seasonings, to designing and building our own smokers all to perfect and create the Smokey's brand of excellent grills. Our wood chips, cooking equipment, decor and even our Executive Chef are all imported from the USA. We hope you enjoy the food and dining experience we've created for you.
