Vinson & Elkins' Dubai office provides a geographically centralized position to serve clients with interests in the Middle East, North Africa, and the Asian subcontinent. Our attorneys in Dubai are integrated with V&E's worldwide network of offices resulting in efficient delivery of corporate, finance, projects, and litigation advice across nearly every business sector, regardless of client location. Our law firm advises on mergers and acquisitions; private equity and fund formation; conventional and Islamic finance; restructuring and reorganization; capital markets, and litigation matters with particular strength in the energy, financial services, construction/infrastructure, shipping, and telecommunications and media sectors. The Dubai office includes U.S., English, and civilly qualified lawyers, half of whom are native Arabic speakers. The majority of V&E's lawyers in the UAE are bi-lingual or multi-lingual with Arabic, English, French, German, Italian, and Urdu translation capabilities. These language skills allow us to more effectively and efficiently represent the interests of our clients and maintain a robust catalog of precedent documents that provide cost savings.
