Ukraine International Airlines (UIA) is Ukraine's leading airline established in 1992. Today, UIA is a 100% privately-owned company. The UIA primary business is to provide safe and reliable passenger and cargo transportation. The UIA fleet currently comprises 39 modern aircrafts: medium-haul Boeing 737 (including one freighter 737-300SF), medium-haul Embraer-190, and long-haul Boeing 767 airliners. The main base airport for UIA is Kiev Boryspil International Airport (KBP). Safety is an absolute priority for UIA. Ukraine International was the first airline in the CIS to have earned the distinction of receiving the IATA Operational Safety Audit (IOSA) Certificate, having entered into the IOSA Registry. The IOSA programme is an internationally recognized and accepted evaluation system designed to assess the operational management and control systems of an airline. In 2011, UIA has successfully underwent an IATA Operational Safety Audit and received its fourth IOSA Certificate. We are proud that our operational and safety standards are fully in line with international requirements.
