Fax: 971 6 5323422

SIMCO is considered to be the pioneer in the field of Aluminum Machinery as well as all Woodworking, Sheet Metal & Steel Fabrication Machineries in U.A.E. and in the Middle East. We have successfully catered to a major sector of the aluminum industry, a fact which has been testified by our clients themselves. Since then, we have never looked back and have forcefully marched ahead in almost all the major industries with our solutions. Today, we find ourselves a real force to reckon with, by making a project division to plan the factories and production line from A - Z.
