Reem Emirates Aluminum (REA) is a value based organization which is built on the pillars of commitment to quality product, service and optimal productivity.

Established in May 2006, we strive to provide innovative and cutting-edge facade solutions to the rapidly growing construction industry in UAE and the Gulf Region. Our primary focus is on architectural facade design, engineering, manufacturing and installation specialized in aluminum unitized curtain-wall, conventional curtain wall, doors, windows and architectural metal cladding for buildings. Being the pioneer in the region of green facade technology, REA valued its contribution to environment and customer by providing the energy efficient and environment friendly facade solution. Built on an area of 80,000 sq mt, our Abu Dhabi factory is equipped with the most contemporary CNC machinery.
