Innovation and Style are the values that have been inspiring SENSI to redefine luxury for people fond of design. What is luxury? The concept may not be new, but its definition – the way in which individual and collective dreams and aspirations are made real – is a moving target. And in a marketplace dominated by more rapid change than ever before, what creates that sense of "specialness" but the expression of individuality through the unique and highly personal experiences that luxuries help provide.

Our mission is to constantly strive to create and provide the most unique experience through innovative services and exclusive products that cater to the needs and tastes of the most discerning individuals. From artistic mosaics that abound in colors and textures, to coverings radiating elegance in their simplicity, to chic and eclectic bathroom collections, to contemporary furniture adding splendor to creative spaces – SENSI offers endless choices and possibilities, exploiting talent, with a passion for perfection, to bridge the gap between life and style.
