Lillidale Diagnostics manufactures and distributes diagnostics kits and reagents for use in medical, veterinary and food laboratories. Our range of veterinary diagnostics kits includes LilliTest Test Kits which are Rapid Tests for the diagnosis of animal diseases, besides other serological and PCR kits that we distribute. Lillidale Diagnostics supply a range of food diagnostics based on Elisa and PCR techniques in addition to mycotoxins and drug residues testing kits. Our range of Medical kits includes kits for the diagnosis of bacterial diseases in addition to a wide range of reagents for use in medical and microbiological laboratories. Lillidale Diagnostics also distributes a range of laboratory equipment, disposables and consumables.
