Fax: 971 2 6277551

Al Noor Hospitals have been providing a comprehensive range of medical and surgical services since 1985 to the local and expatriate community. We deliver the highest standard of healthcare practice to our patients, through our highly qualified and dedicated staff together with our state-of-the-art facilities. We take pride in providing a family atmosphere whilst delivering our healthcare services to our patients, so they feel safe in our hands. We have opened branches all over the Emirate of Abu Dhabi reaching out to a wider community with accessible healthcare services.

We are continually seeking ways to improve and innovate our services, and to maintain and increase the satisfaction of our customers. This can only be achieved by maintaining a strong focus on our vision and mission. We also have links with internationally renowned universities in the USA and Europe and regularly invite visiting professors and consultants from different parts of the world, for our continued learning and development.

The well being and loyalty of our patients encourages us to continue to be the first choice in private healthcare in Abu Dhabi.

We look forward to welcoming you to the Al Noor family.
