Fax: 971 4 3354338

GAJ is an Award winning Architectural and Interior Design practice and also the largest and most established UK architectural and Design Company based within the UAE. Arguably it was GAJ that set in motion a countrywide trend in the UAE to incorporate traditional Islamic themes into modern architecture and this successful formula is still achieved through employing the region's best architects and designers . Headquartered in Dubai in 1991, we have been responsible for creating some of the Emirates most iconic buildings and spaces. Over the years we have attracted an International team from 22 countries made up of almost 180 architects, designers, technicians and business support all who work towards achieving our ethos.
