In 2002, Philipp Wagner and M. Jamil founded a company that primarily represents Macina Germany in the Middle East market. Macina is an engineering firm specialized in 3D animation offering 3D computer generated images (CGI) and 3D animation for architects, interior designers, developers and marketing companies. Headquartered in Dubai, Macina has evolved since then from being a branch of a foreign company to a leading 3D animation and engineering solution provider in Dubai and the GCC region.
