BlueBoxME (a division of IAL Software Systems LLC, Dubai) established 2005 specialize in the supply of 3D modeling & design services to local and international customers. We offer wide range of services in architectural visualization in the form of photorealistic renderings, artist impressions, 2D renderings and 3D animations. We have a philosophy of working as an extension to your existing in-house team(s) on long term basis and provide you with a seamless value to your presentation material.
