Roma Enterprises was established in 1978 as order suppliers to marine and engineering companies. In the early 1980's we started importing our products from various suppliers in U.K, South Africa, India, Pakistan, Taiwan, and Hong Kong. Between 1985 and 1995 we concentrated our efforts in importing specialized rigging hardware from these various countries. Some of the brands we deal in are George Taylor, Manho Wire & Rope, Stallion, Kangtai, PWB Anchor, Ferolite, Kuwes, and Toyo. The size and volume of business was improving at Roma Enterprises and business domestically increased variably and slowly Roma Enterprises was moving into the international sector. Today, we are one of the leading suppliers and stockiest of marine supplies and rigging hardware in major domestic markets and are looking forward to capitalizing on international markets. We have expanded our horizon by setting up a new office in Muscat (Oman) called Gulf Oilfield & Industry Supplies. We are trying to reach out to new markets and develop our business to levels higher than what we have achieved at present. In the future we hope to have expanded throughout the gulf and maybe even internationally. Roma Enterprises aim: 1. To be the leading supplier of marine and rigging hardware in the gulf. 2. To offer our customers the satisfaction of working with us. 3. To offer fully certified and high quality products and services.
