As a Dane and former member of Bang & Olufsen's Board of Directors, I have a sound appreciation and deep respect for Bang & Olufsen's values and roots. Since the beginning in 1925, Bang & Olufsen has focused on providing unmatched customer experiences through a distinctive range of high-quality products and a dedicated retail network. Bang & Olufsen has grown from a small local operation to a global icon combining design excellence and technology with strong emotional appeal.

The founding vision of Bang & Olufsen was to possess the "Courage to constantly question the ordinary in search of surprising, long-lasting experiences." The employees at Bang & Olufsen live and breathe this vision every day to this day. They push themselves to develop new technology and bring it to you in the most attractive design expression. The employees have always made the difference at Bang & Olufsen and continue to do so today.

My promise to you, dear visitor, is that we will continue to push ourselves to surprise and impress you, so you will continue to be inspired by all your Bang & Olufsen experiences.
