Kings' Dubai is a purpose built Primary School offering first class education for children aged 3- 11. Foundations for the life-long process of education are laid down in the primary phase. This is when a child’s interest in all around him or her is most readily awakened by good teaching and it is when intellect and mind are at their most receptive to the stimulus of new ideas, events, personal investigation and positive feedback. We, as parents and teachers share the responsibility for providing the opportunities for young people to nourish, to give them a stake in their future, furnishing the means by which they are able to make the right decisions, lead others and achieve high levels of personal fulfillment. Kings’ Dubai is designed in every respect to offer children pathways towards these goals.

Our dictum,” the best by every child” describes the very essence of our work. We have high expectations of our pupils and although the search for academic excellence is at centre stage, pastoral care and personal development in the form of moral strength and stability, creativity, self-discipline and physical well-being are highly significant aspects of an education at Kings’. Together they embrace the

needs of the whole child by way of preparation for participation in a fast moving, rapidly changing international community.

Our school with its superb, purpose designed facilities offers a once-in-a-lifetime opportunity for children to build the foundation for future success.
