Khalidia International Shipping is committed to Quality, Reliability and Service. We aim to maintain this by providing superior service that consistently meets the needs and expectations of our customers, by effecting improvements and enhancements to our existing system. Established in 1980, Khalidia International Shipping has in a short span of time, emerged as specialists in dealing with all modes of cargo transportation. An advisor to our clients in the multi-billion dollar world of international trade, Khalidia has demonstrated its ability to move virtually anything, anywhere. Being in the service business, off-the-peg or tailor-made packages are specially designed to suit the needs of all Khalidia's clients - whether small, medium or large establishments. All phases of international movement for crucially needed freight encounter unparalleled handling thereby making your logistical challenges seem non-existent. Speed, Economy, Efficiency & Reliability - four simple words not easy to find together in reality, but Khalidia exerts all resources to achieve them for every client, for every single shipment. The experts on our team will evaluate your current system and quickly detect potential for improvement and saving. We'd like to say more, but would prefer if you experienced how we follow our client's cargo on its path-down the road, in the air, or on the water. A reputation for caring...
