About Alawi Group

The Alawi Group was formed officially in 1971 when Eagle Trading Co LLC (1969) and Robin Machineries and Equipment (Ltd) merged together to form the subsidiaries of the Group. Since then Alawi Group has established its reputation as one of the region's leading firms, with a strong commitment to its customers, employees and the society. Alawi Group remains largely a family orientated business, and the original founder is still heavily involved in the business. Our experience, in depth knowledge of the industry, and client-based approach is what sets us apart from our competitors.

The continued efforts and support of the management team coupled with the dynamic business environment in Dubai has helped develop the business to what it has become today, with a track record for continued successful client relationships over the years.

Currently, Alawi Group is the holding company for three subsidiaries, which include Robin Machineries and Equipment (Ltd), Eagle Trading Co LLC and Alawi Real Estate.
