VSATplus is the leading supplier of complete telecommunications solution related to Satellite and Wireless applications. We have formed cooperation with satellite companies and network operators around the world and today we design, construct, commission and support complete VSAT solutions for home, corporate and government users. Long-term experience with major players and products in the international telecommunications sector, combined with the knowledge of customer requirements in the Middle East, Africa and Central Asia region as well as excellent technical know-how of regional partners makes it easy for us to find the right solution for specific requirements. Distributing the hardware and providing the Satellite services is our role in the region. Our regional office, warehouse facility in the Dubai Airport Free Zone and existing of our sales, engineering and logistic people lead us to deliver an optimized solution and ensure a timely delivery of our hardware right to your door.
