Build-IT SA

11527
Greece

Build-IT SA is a dynamic company that provides powerful and scalable 'Internet of Things' services. With our solutions you can store, share & discover realtime sensor data, energy and environment data from objects, devices & buildings around the world. We develop "artificial" skins for the optimization of buildings' operation using the most up to date wireless networks, automation and remote management technologies over the Internet. The solutions of Build-IT are based on cutting-edge technologies and aim at developing building "intelligence", optimizing their efficiency and cutting down their operation cost by saving energy. Build-IT undertakes to provide reliable and efficient automated operation solutions with reduced energy footprint to industries, commercial buildings, as well as homes.
