KaonMedia launched into business in 2001 when the advancing digital TV industry necessitated cutting-edge products designed by the most experienced specialists of the digital set-top box industry. To Meet the needs of the industry we teamed up with CAS/Conditional access system companies like CONAX and NDS and launched a variety of high-end products based on middleware platforms, Not only for today but also for tomorrow we are gladly ready to provide customers around the world with our full product line-up including satellite, cable, terrestrial, IPTV and hybrid set top box.
