At ICM Capital we embrace a client focused approach and our commitment to professionalism and integrity continuously drives the business firmly in the direction of treating our customers fairly. We follow industry best-practice and maintain high standards of governance, compliance and consistency. To ensure you as a valued client are protected, your deposits will be held with highly rated and secured financial institutions. We treasure a close relationship with our customers and therefore know our clients well. ICM Capital consists of a highly professional, experienced and energetic team who provide high quality customer service and personalized support for each individual. Support services include an education centre, a financial glossary as well as market news delivered straight to your inbox. Our products ICM Capital offers you the opportunity to trade fast, tight prices on Foreign Exchange (FOREX) and CFD Contracts on Oil (WTI & Brent), Indices, Silver and Gold using one of the most renowned retail trading platforms in the world, Meta Trader 4. Meta Trader 4 is a professional platform that not only allows you to actively trade, it also has charting and modelling tools. We cater to those who want to practice their trading techniques and provide the option of opening a risk free, no obligation, Demo Account. Once you are ready you can then apply for a live account and try out the real thing!
