Specializing in NFPA 70E Arc Flash Clothing and PPE Safety Supplies, Macron Safety is a safety solutions partner. We work beside you to educate and train within your company to ensure you are not only OSHA compliant, but more importantly you and your employees are as safe as possible in your work environment. Macron Safety helps you to define your company's unique individual needs based on your work environment and safety requirements. Macron Safety offers one of the most comprehensive safety programs in the industry with a variety of different solutions including: Personal Protective Equipment, NFPA 70E Training, Safety Labeling, Dielectric Testing. Macron Safety feels it is important to provide on-site training for your employees; so we travel to your site to provide all the training you need to make OSHA required and safe decisions.
