The GSM Controller RTU5010 is a universal GSM dialer and controller as well as a GSM Remote Control and Alarm Unit. it provides 4 relay drivable outputs(12V-24V), 4inputs and RS232 Serial Port. It allows you to monitor and control an alarm or remote stations or equipments or machines by SMS(Short Message Service) Or transport data between user and PLC. Another, it can transmit data from apparatus (thermometer,humidity meter, electric meter, flowmeter) to user or monitoring center by SMS(GSM DTU).(The different from the GSM Controller RTU5010 is the GSM Controller RTU5011 with 8 I/O Ports, 4AD inputs, Microphone and Speaker . The GSM Controller RTU5010 with 4 I/O ports, without AD inputs, Microphone and Speaker. The other functions are the same.) What Applications does the GSM Controller RTU5010 suitable for? 1. Security Alarm System applications; 2. Supervision and monitoring alarm systems3. Automatic monitoring system;4. Vending Machines;5. Pumping Stations;6. Buildings and Real Estate; 7. Weather Stations;8. River Monitoring and Flood Control;9. Oil and gas pipelines;10. Corrosion protection11. Valve controls;12. Wellheads;13. Energy saving,street lights control system;14. Tanks, levels, temperatures,water leakage applications;15. Transformer

stations;16. Unmanned machine rooms;17. Control room application; 18. PLC and Automation System, M2M;19. GSM Access Control System, GSM Gate Opener, etc.Standard Package list:GSM Controller X 1Power supply adapter X 1 (12V 1.5A 1)Serial cable for communication X 1 (RS232)CD (Pc programmer tool) X 1GSM Antenna X 1Optional Accessories:Water Overflow Level Sensor, Oil Overflow Level Sensor, Water Leak Sensor, Temperature Sensor, Door Sensor, PIR Motion Sensor, Smoke Sensor, Gas Leak Sensor, Glass Break Sensor, Shock Sensor, Power failure sensor, etc.
