Integra Technologies, founded 2004, is a privately held company focused on providing Linux based business solutions to Enterprises. We are committed to spread the use of technology and tools so that the digital divide gets narrowed.We are headquartered at the Sharjah Airport International Free Zone, United Arab Emirates, with offices also in Dubai. We have an International Development Center (IDC) at the Technopark, Trivandrum, India. We provide linux and platform infrastructure solutions in the entire Middle East.We have some of the largest Enterprises as our valued clientele, including Etisalat, Oman Telecom, the Dubai International Airport and the new Maktoum International AIrport at Jebel Ali, Axiom Telecom and GlaxoSmithKline among others.Linux in the Enterprise space has grown at a furious pace, and new technologies like virtualization and cloud are having an ever growing presence in the Data Center.We believe that support is most important to an IT Administrator. We have partnered with Red Hat to provide the best of breed Enterprise Operating System, the Red Hat Enterprise Linux to the data center. To add value to our offerings, we have tied up with companies providing Enterprise Linux solutions, such as vmware, Novell, Zimbra, Bynari Inc, Barracuda, MailArchiva, Kaspersky etc. Besides offering cutting edge technologies, these tie-ups provide customers with multiple layers of support assurance.
