Mideast Metals FZCO is one of GCC's most prominent Stainless Steel Stockholder providing Stainless Steel to various industries in the region. As a leading stainless steel stockholder Mideast Metals FZCO's stock holds the entire range of stainless steel products like stainless steel sheets/plates, coils, tubes, pipes, round bars and other stainless steel products available in different grades and sizes specially stocked to meet the local industrial demands as well as the entire of the GCC. As it would be the case with any country which develops at an exponential rate such as the UAE Steel and stainless steel products are in high demand. It is often a prodigious task to maintain the supply at par with the ever rising demand. Quality, reliability and consistence in delivery of specific products on time are an integral part in the infrastructure network of any booming economy. This is where Mideast Metals FZCO adds value to the system. The company maintains a steady supply of stainless steel products, throughout the Emirates of the UAE on a daily basis. This is made possible through two purpose built warehouses, one in Jebel Ali Free Zone with 120,000 sq. feet of land area, and one in Fujairah Free Zone, having 30,000 sq. ft land area with an inbuilt state of the art computerized stock management and order entry system. "Keeping an open mind to all the needs and the queries of our customers, we are strongly motivated to become the most supple and steadfast

supplier to our customers and serve them to their highest satisfaction level”.
