Law Marketing Queens is an internet marketing company founded by Seamus Hanratty BA, LLB, DIP Marketing. You can find Seamus on LinkedIn here. Who we are? Law Marketing Queens works exclusively with law firms, claims firms and other legal firms across the globe. We are a team of internet marketing experts based in Ireland who specialise in search engine optimisation and web design. We improve your search engine positioning and optimise your website to appeal to, and convert prospects into clients. How law firm marketing can help? If your website does not appear on the first page of results for Google when consumers are searching for your services, then it is very unlikely your website will generate clients. Firms with rankings at the top of Google for different search terms are able to consistently receive new clients. We work with firms which have an existing customer base and are looking to further market their practice online so they can progress and gain more clients.
