Nanjing Hjchem Equipment Co., Ltd. is a professional manufacturer and supplier of advanced chemical and pharmaceutical processing equipment. With years of expertise and continuous innovation, we are committed to delivering high-performance solutions that meet the highest standards of safety, quality, and efficiency.Our core product portfolio focuses on High Pressure Reactors, Catalytic Hydrogenation Reactors, and Hydrogenation Reactors, which are widely applied in the pharmaceutical, fine chemical, petrochemical, and material science industries. Each reactor is engineered with precision to ensure reliable performance under demanding operating conditions. We emphasize durability, safety, and efficiency, enabling our customers to achieve consistent and scalable results in their research, pilot, and production processes.The High Pressure Reactor series is designed to handle complex chemical reactions under elevated pressure and temperature, offering robust construction and flexible configurations. Our Catalytic Hydrogenation Reactors and Hydrogenation Reactors provide optimized solutions for hydrogenation processes, ensuring high conversion rates, process safety, and energy efficiency.At Nanjing Hjchem, we believe that every process is unique. Therefore, we provide customized reactor solutions tailored to specific technical requirements. From design and material selection to fabrication and testing, we follow strict quality control standards. Every unit undergoes rigorous inspections,

including hydrostatic, pressure, and operational testing, to guarantee safe and reliable operation.Beyond equipment manufacturing, we offer comprehensive services, including technical consultation, installation guidance, training, and after-sales support. With a strong focus on innovation and customer satisfaction, we continue to expand our global presence and support clients in achieving sustainable growth.Nanjing Hjchem Equipment Co., Ltd. is dedicated to being your trusted partner in chemical process equipment, delivering reliable technology and long-term value worldwide.
