Dr. Azra Vaziri – Aesthetic Physician in DubaiDr. Azra Vaziri is a DHA-licensed aesthetic physician with more than 20 years of clinical experience. She provides advanced non-surgical aesthetic and regenerative treatments in Dubai, with a strong focus on patient safety, personalised assessment and natural-looking results. Her treatment philosophy is based on understanding each patient's facial anatomy, skin condition, ageing pattern and individual concerns before recommending any procedure. Her goal is not to change natural features, but to restore balance, improve skin quality and help patients look refreshed, refined and confident.

Botox and Facial RejuvenationDr. Azra provides personalised Botox treatments for expression lines and facial balance. Treatment areas may include the forehead, frown lines, crow's feet, bunny lines, gummy smile, chin, jawline, neck and excessive underarm sweating. Every treatment is carefully planned to maintain natural facial movement and expression.

Dermal Fillers and Facial ContouringDermal filler treatments are designed according to the patient's facial structure and desired result. Treatment areas may include:

- Lip enhancement and lip reshaping
- Cheek and mid-face enhancement
- Chin and jawline contouring
- Non-surgical nose correction
- Nasolabial folds and marionette lines
- Under-eye and tear-trough concerns
- Facial asymmetry and profile balancing
- Replacement of age-related facial volume loss

Dr. Azra uses a conservative approach to create balanced results without an overfilled appearance.

Biostimulators and Collagen-Stimulating TreatmentsBiostimulatory treatments help improve skin firmness, elasticity and overall quality by supporting the body's natural collagen production. Depending on the patient's needs, treatment options may include:

- Sculptra
- Radiesse
- PLLA and PDLLA biostimulators
- Collagen-stimulating injectable treatments

Combination protocols for facial and body skin laxityThese treatments may be recommended for gradual rejuvenation, volume restoration, skin tightening and improvement of facial

or body contour. Aptos Thread Lifting Aptos threads can be used to lift and reposition selected facial tissues without surgery. Treatment may address sagging cheeks, the jawline, lower face, eyebrows and neck. Dr. Azra is an Aptos International Certified Trainer and provides thread-lifting treatments based on careful patient selection, facial anatomy and the degree of skin laxity. Skin Boosters and Regenerative Treatments Skin boosters and regenerative treatments are used to improve hydration, texture, elasticity, brightness and overall skin quality. Available treatment options may include: Injectable skin boosters Hyaluronic acid skin-quality treatments PDRN and polynucleotide treatments Salmon DNA treatments Exosome-based protocols Mesotherapy Treatments for the face, neck, décolletage and hands Jalupro and Teosyal Redensity skin treatments A personalised combination may be recommended depending on concerns such as dryness, fine lines, dullness, uneven texture or early skin laxity. Microneedling and RF Microneedling Dr. Azra offers advanced microneedling treatments for skin rejuvenation and selected skin concerns. These may include: Dermapen 4 microneedling Potenza RF microneedling Treatments combined with PDRN, mesotherapy solutions or exosome protocols Protocols for acne scars, enlarged pores, uneven texture, fine lines and skin laxity The device, depth and treatment settings are selected according to the patient's skin type, concern and treatment area. Professional Experience Dr. Azra has worked as a trainer for leading international aesthetic brands and has participated as a speaker and trainer at major medical events, including IMCAS Paris and Dubai Derma. Her philosophy is simple: the right treatment, in the right amount, and in the right place. Each treatment plan is created to enhance the patient's natural appearance while avoiding unnecessary or excessive procedures.
