Innovations and growth At Roxtec, we develop, manufacture and sell complete sealing solutions for cables and pipes. Our pioneering modular-based seals are the base for our rapid and sustainable growth, but the positive trend is first of all built on committed people, strong values, and a clear customer focus. Research and development Our headquarters are situated in Karlskrona, Sweden. We have extensive research and development resources at the design and engineering department and the technical center with advanced test labs. In the same facilities are also our production and logistics centers located. Solutions for your needs Our close co-operation with customers and the tightness within our own organization create excellent conditions for continuous improvement. The dialogue enables us to tailor new sealing solutions for customers. It stimulates us to keep on exploring new markets. Global activities We support customers locally on more than 70 markets. Our subsidiaries are found in Australia, Brazil, China, Croatia, Denmark, Finland, France, Germany, India, Italy, Japan, Mexico, Singapore, South Korea, Spain, Sweden, United Arab Emirates, United Kingdom, and the US. We also have a wide network of distributors.
