It all started with a big idea - a business model - 45 years ago: give customers the finest products available, in a manner that's most appropriate for their needs, and back it up with fast and professional service. Today, the Al Accad Group of Companies provides customers with a wide and high quality portfolio, from table top products through to ceramics, sanitary ware and spare parts for motor vehicles. The Group works with a broad range of demanding and sophisticated clients, including airlines, hospitals, sports clubs, contractors and developers. Good at handling the smallest of details, we are committed to blending the broad capability and experience of a large organisation with the dedication, flexibility and responsiveness of a specialist. A vast stock inventory continues to be a key factor in our ability to consistently exceed industry standards, with our entire team understanding that product availability and dependable delivery are two values important to our many valued clients.
