Hussain Mohd.Abbas Block Factory is a local company having as ISO 9001: 2008, which started its operation in the year 1976. It is one of the oldest block manufacturing factory to cater to the ever growing needs of concrete products in a booming U.A.E market. The management is run by professionals and experts in the field of concrete industries and has taken a bold step to introduce a high capacity fully computerized concrete products manufacturing plant to cope with the growing demand for quality concrete products. It has a reputed name because of quality raw materials being used for manufacturing concrete products, constant monitoring of materials, strict in house control on production process and finished product of each batch are tested as per BS6073 part I & II and BS6717 part-1-1993-under Dubai Municipality Local order 44/90 before they are delivered. The product range includes Hollow, Solid, Hourdy and Thermal Insulated (Sandwich) Blocks in normal weight and Light Weight by using high quality pumice. A wide range of designs in Interlocking Tiles are manufactured to suit villa projects to Infrastructure projects. Hussain Mohd.Abbas Block Factory products are tested for following suitable conditions and design consultants requirements.

Fire resistance period between 2 -4 hrs. Acoustic performance from 45 to 55db.

Modern times create the need for modern designs. Concrete blocks have become increasingly popular in the gulf area, mainly because of their inherent strength ,economy resistance and to suit weather conditions. That is why a variety of concrete blocks with various textures and shapes are produced to satisfy the needs at costs substantially lower than other similar products.

Hussain Mohd.Abbas Block Factory is committed to providing the highest quality of products and service to its clients. The firm is a business organization operating in an aggressive market. Our pursuit of the highest quality of service to clients is as essential to the long term growth and survival of the business as are cost control and competitive pricing. The company strives for continuous improvement throughout its operations to satisfy customers I the most effective way.
