Twenty-one years of development and experience have established Gulf Paints as a significant trading and manufacturing corporation and one of the leading companies in the U.A.E. Gulf Paints started its operations in 1982 with hundred per cent National Capital. In its pursuit of excellence the company has repeated its sterling performance year after successful year. The professionalism and dedication of the company management and staff have been the key ingredient in the success of Gulf Paints. Gulf Paints' fields of operation embrace retail, wholesale and tender business, and our customer base includes U.A.E. and international consumers. As with any successful company, Gulf Paints is backed by excellent technical support. Our laboratory staff includes chemists and technicians, providing quality control and dynamic research and development. Quality is a vital component of Gulf paints, and a major contributing factor to the company. Therefore we operate a quality management system which complies with the requirements of ISO standards. Gulf Paints was accredited ISO 9002 in 1995, later updated in 1998 and 2001. Also Gulf Paints was awarded the Silver Medal of the H.H. Sheikh Khalifa Awards Silver Medal in 1999, 2000 and 2001. Gulf Paints' unmatched experience in decorative and industrial production offers a wide range of products and services engineered for specific applications in order to satisfy the divergent of tastes and address the varied needs of our valued customers. Gulf Paints' output includes water based, alkyd based, epoxy based, polyurethane based, and thermoplastic based

products. Last but not the least, we pride ourselves on the strict compliance with all applicable laws and regulations concerning industrial safety and environmental protection.
