EMICHEM (Emirates National chemical Industries) was established by respected and renowned business entrepreneurs with the drive to maintain high international standards of excellence through quality, technology and innovation. Its excellent infrastructure coupled with a vast experience in the field make EMICHEM a highly successful supplier catering to industries around the globe. The EMICHEM plant in Al-Quoz, industrial Estate, Dubai, U.A.E is one of the largest producers of adhesives, thinners, sealants, hygiene and sanitization products and is totally self-sufficient with its own utility facilities. The quality control system includes techno-advanced equipment for the testing of chemical, physical, mechanical and thermal properties on all products.
