Al Wathba Marionnet LLC" is a leading plant bio-technology company established in Abu Dhabi in 1997, as part of the U.A.E. Offsets program between France and the United Arab Emirates. It is considered to be one of the world's most important producer of Date Palms through plant tissue culture technology. Al Wathba Marionnet owns a laboratory in Al Ain city where it propagates high quality varieties of date palm in mass quantities to satisfy the increasing demand locally and internationally. The strength of Al Wathba Marionnet lies in the good results shown in the fields where hundreds of thousands of its date palms around the world are planted and no genetic or physiological problem has ever been reported.
