development in the field of Air-Conditioning. About LGLG the # 1 best seller in consumer electronics was born in Seoul, 1968, manufacturing Korea's first air-conditioner. LG satisfies its consumers there serving uninterrupted quality machines. LG having a sharp eye on the revolutionary economical growth of West, right from the beginning, as the internal research and innovation are going deep, results in introducing Korea's first inverter air-conditioner (1985), and in a year LG start exporting Korea's first window air-conditions to USA. There starts the envious journey and growth of LG electronics in the world market. LG won the approval of UL's MDP and CSA's EEUP (1989), obtained ISO-9001 certification from BSI-QA (1993), Export Records USD (1994), Export Records USD and obtained UL-TCP (1999), Export Records USD and Declared Vision 2005 (2001), achieved # 1 position 5 years USD 4 Billion turn over, the world renowned cooling appliance and air conditioner magazine JARN (Japan Air-conditioning, heating & Refrigeration News) [www.jarn.co.jp](http://www.jarn.co.jp) has selected LG as the # 1 seller for seven consecutive years (2000-2006) in a row. LG commercial air-conditions are available in 148 countries all over the world. In more than 40 countries, including South Korea, US, Russia, Australia and KSA, LG remain unbeatable #1 seller. The graphs shows, by 2010, LG will be the world # 1 manufacturer of commercial air-conditioners and will be the big daddy of all other brands by giving birth to more futuristic machines, in coming years. By introducing innovative technologies like Gold Fin (anti-corrosion), Plasma heat exchanger, Plasma air purifying system, 3 dimensional air flow, Multi Power System, Multi V plus technology (which gives high energy savings), Optimum air conditioning, low noise and vibration, high reliability and robust designs like Art cool (winner of International Forum Design Award and Red dot design award), that looks stylish, innovative and attractive. LG believes that its achievement is the result of giving the consumer nothing but the best. LG promises to continue to innovate and move forward.
