Established in 1997 as a maintenance company initially specializing in Air Conditioning and Elevators maintenance, Elemech Technical Works has over the years grown into full fledged facilities maintenance and management company. We draw on our vast experience to find the perfect solution to varied challenges. Our commitment is to meet your objectives by delivering individually tailored solutions in order to achieve the desired improvements in operational performance. Our passion for performance excellence means we have steadily and quietly acquired an impressive track record, across a range of sectors in both the residential and commercial properties. We have dedicated teams of technicians and engineers who can respond fast to any requirements. Businesses run best when you anticipate and plan ahead for interruptions. We identify your operations and maintenance needs and tailor our programs to address them before they affect your productivity. Our Preventive and Operational Management System is designed to manage services, resources, and assets by standardizing processes, improving work methods. A specifically tailored preventive maintenance schedule is given for each building, to ensure that the building and your business is always up and running.
