The Camfil Group is a world leader in the development and production of air filters and clean air solutions. Camfil is also one of the most global air filtration specialists in the world with 23 production units and R&D centres in the Americas, Europe, South East Asia and the Asia-Pacific region. The Group, headquartered in Stockholm, Sweden, has 3,428 employees and sales in the range of SEK 4.9 billion. International markets account for almost 90% of sales. The company's business is to provide customers with sustainable best-in-class air filtration products and services through four main business units: Filters, Power Systems, Air Pollution Control (APC) and Airborne Molecular Contamination (AMC). With 50 years of experience in air filtration products and solutions, Camfil delivers value to customers all over the world while contributing to something essential to everyone – clean air for health, well-being and performance.
