About Shankland Cox
Shankland Cox is an international consultancy specializing in architecture, landscape architecture & master planning , engineering and project management. We have offices in Europe, the Middle East and Asia. Over a period of 50 years Shankland Cox has grown and developed into a leading consultancy based on professional skills, experience, and the delivery of quality solutions to meet it's clients' requirements. Clients appreciate the way in which these essential qualities are harnessed on projects to realize their visions. Shankland Cox provides project teams with proven ability to work closely with clients meeting their particular needs. Every project is undertaken with computer aided design and production facilities, backed up with quality management principles and systems.
