Nashwan has been created and is operated by an ex Officer of the UAE Armed Forces. It is a private local Company, having its head office in the city of Abu Dhabi Capital of United Arab Emirates (UAE). Since the beginning and according to the policy of its creator, Nashwan core activity is the spare parts and repair for military equipments in order to serve the brothers in arm. We should be grateful for the confidence they immediately put in Nashwan when the activity started in 1998. Then, thanks to its high qualified team, Nashwan has diversified its activity to comply with the civil sector requirements such as photovoltaic technology, ATD for air conditioning and environment protection equipment. Our mission dictated on us is to take in high priority the customer requirement and to define the most pertinent system for providing a turn key solution using the latest technologies available in the market. Nashwan as a certified ISO 9001:2000 Company put always the customers at the heart of its policy. Their satisfaction is the best rewards we can have
