At ADVANCED GROUP OF COMPANIES, distinguished projects are achieved by skillful communications and the tow-way interaction between operation and management. The internal processes ensure that all projects developed in a comprehensive & timely manner.ADVANCED GROUP OF COMPANIES is constantly aware of our earth’s dwindling resources and employs the concept of environmentally sound materials, construction methods, energy conservation and life cycle costing in every project we produce. This results in clean and healthy systems and installations which are at the same time economical to operate and maintain Construction engineering field is blending of function, planning, organizing, coordinating and, controlling. Each of these factors is addressed in the construction engineering process, within the framework of the contract budget and schedule. Quality engineering results from careful consideration and acknowledgment of this content.The Contracting firm earns a reputation, and the reputation is earned through the firm’s ability to deliver projects in time, and within the budget.
