In 1956 Belgraver Aircraft Interiors took its maiden step in aviation after being requested by the Dutch national carrier to manufacture a few spare curtains for their Super Constellations. Nowadays, Belgraver Aircraft Interiors runs modern facilities in Naarden - The Netherlands, Dubai - United Arab Emirates and Jakarta - Indonesia around the clock. Our team with more than 100 specialists is at your disposal to keep your aircraft interiors up to standard. Our product range covers non-structural parts manufactured from plastic, foam and textile for aircraft interiors which are supplied to more than 120 airlines and MRO's. As a result, Belgraver Aircraft Interiors prides itself with an installed base of over 2,500 'flying showrooms' worldwide. Our products meet the latest airworthiness requirements. They are designed, manufactured or repaired for any renowned aircraft seat and aircraft type and are released with an EASA Form 1. We guarantee OEM- or improved quality, offering savings up to 70% compared to OEM pricing combined with impressive short lead times for any requirement in our product range.
