

Molded & Extruded Rubber Parts Manufacturer

Abu Dhabi, Abu Dhabi
United Arab Emirates

We're the people you turn to for help. Exercore Engineering is an industry-leading provider of extruded and molded organic, silicone and specialty polymer products. Our experience enables us to develop and deliver cutting-edge, customer-specific solutions through design engineering, individualized customer support and service, operational excellence and logistical support. We're Problem Solvers and Solution Providers. As Problem Solvers, our research, development, engineering and design teams work in tandem with customers to deliver targeted solutions for their sealing challenges. As Solution Providers, our vertical integration allows us to leverage our expertise and services, from compound formulation to production of the finished product and shipping, to provide customers with what they want, when they want it.
