Innovation, combined with customer service, quality and value commitments, have transformed United Grease and Lubricants Company Ltd, a 100% private UAE Oil Company, from a grease manufacturing operation, started in 1996 into a vibrant leader in the lubricants market. Clearly aligning itself with the UAE's rapid pace of modern development, the company continues to invest for growing its business. To achieve this, the company has recently commissioned a state of the art lubricants manufacturing plant incorporating the most modern and advanced technology and is one of the best in the area. UGL has been devoting all the efforts to the production and marketing of quality lubricants in order to become a globally recognized Oil & Grease manufacturing company in UAE. With human - oriented management philosophy, we want to grow as a Human Technology Enterprise with which company, customer & everyone related can benefit together. The aggressive marketing & high quality lubricants has much impressed the local and the export market - UGL's market area covers the Middle East, Far East, Far East, Pakistan, India, Bangladesh & other South Asian countries, Taiwan, China, Africa, Europe and CIS States. Manufacturer of technologically advanced oil & greases, all to the highest international standards, under the trade mark of "SCOPE" # We also

---

undertake contract blending for third parties # Automotive lubricants # Marine lubricants # Automotive gear Oils for Manual transmission # Automatic transmission fluid # All kinds of industrial oils # Wide range of high quality greases # Brake fluids # Specialities.
