When searching for Retail Technology solutions in the UAE, the Middle East and Africa, E-PoS International must be your first port of call, because with us you can be assured of quality products, services and expert customer relations. Headquartered in the Emirate of Dubai, E-PoS International is a leading proponent in the retail, hospitality, banking and securities fields. Established in 2000, the company has wedged itself firmly in the retail market, producing both branded and OEM products for distribution around the globe. E-PoS International constantly adapts and improves its services to keep up with a rapidly changing world. We can also be found in 11 offices throughout India, operating as E-PoS Systems (India) Pvt. Ltd. The main branch is located in Mumbai, from where they cater to the Asia Pacific region. We specialise in PoS (Point of sales) and Peripherals, Auto Identification, Banking, ECR's (Electronic Cash Registers), Security, Kiosk/Signage and General IT, thus fulfilling your every Retail Technology need. Our products can be found in all manner of locations, both large and small, including banks, government organizations, hospitals, restaurants and filling stations. Aside from producing our own products, we also deal with a number of high-end suppliers and partners who share our vision for superb quality and service to all clients. Some of these affiliates include money counting specialists AccuBanker, face recognition and access control giants Face-Tek and Electronic Cash Register producers Sam4s. Other brands include: STAR Micronics, Metrologic, Fuji system Machines, NFive, Seiko Instruments, Godex, ClearJet, CTS, CardFive and Staff On Time.
