Mediatech FZ LLC is a world class international consulting firm that provides ICT design services, encompassing telecommunications, communications and specialist electrical low voltage technologies for high end hospitality, leisure and commercial projects. We provide a complete range of design, engineering, and consulting services to meet the needs of owners, developers, architects and engineers. mdg is a recognised leader in the design of integrated solutions for hospitality and leisure incorporating communications infrastructure, data networking, telecommunications, audio visual, building security and specialist electrical low voltage technologies. From our four office locations mdg provides design services internationally, and wherever in the world we are working, we bring the same focus; application of the most appropriate technology to meet the operational needs of the client and a consistent focus on design integration. Widely recognised as the industry leader mdg has unequalled experience in the delivery of exceptional technology solutions into complex mixed use construction projects. mdg are team players and know what it takes to deliver high technology solutions in complex international construction projects and are one of only a handful of consulting firms worldwide with significant new build hospitality experience.
