It's diversity, flexibility, accessibility and affordability create a fertile ground for its growth in UAE especially in DUBAI. In our treatment centre we are planning to give scientific treatments for all ailments prescribed in Ayurveda.

Trained and experienced therapists from Kottakkal are also here. Separate treatment facility for ladies and Gents are also available. Two types of treatment methods are mainly available here.

One as a preventive aspect and Second one as curative. Preventive aspect includes Rejuvenation therapy. In curative aspect along with in take of medicines, panchakarma and other treatments are also given depending on the ailments and other general health conditions.
