Established 1877 Global leader in technology based Engineering, Construction and Steel Fabrication services
List of achievements spans the world Based in Darlington, County Durham Over 500 staff Part of the Al-Rushaid Group
Public and private sector clients
1000 Tonne per week fabrication capacity With engineering excellence as the foundation stone of all our activities, the necessary support to build the company structure is laid. From engineering excellence comes the company's ability to provide our clients and partners with the highest value possible on all our dealings no matter how large or small they may be.

We strive for Quality Management which to us means "Right first time, every time and on time." We strive towards a culture of zero defects, no matter how difficult this is perceived to be.

The company operates to the highest safety standards required in industry today, no matter where in the world such operations exist. We are an environmentally conscious company, fully aware of the implications that our activities may have on the environments in which we operate. Wherever possible, we meet and exceed the requirements laid down and accept our responsibilities seriously.
