Fax: 971 2 6655118

The British Veterinary Centre provides the highest level of ethical and clinical veterinary care standards in the Middle East. Our veterinarians are Members of the UK's Royal College of Veterinary Surgeons (MRCVS). We are the only veterinary hospital practice in Abu Dhabi that is owned by the British MRCVS veterinarians that work in the hospital. If you are used to dealing with the owners of your veterinary practice this could be a desirable advantage you can continue to maintain with us. We believe this ownership factor is also a key advantage that allows us to determine the high ethical and clinical standards for pet treatment that we are proud to have provided over many years here in Abu Dhabi. Our large team of vets, nurses and international transport staff offer an extensive range of veterinary services and friendly advice. Together with the investment in the latest equipment, this sets us apart in the provision of quality veterinary care in the Middle East. (Emergency Number when the practice is closed) Emergency: 050 823 0780
