Maxell Industries LLC is actively involved in the manufacturing of Electrical Panels and Sheet Metal products. In the Electrical Panel Division we have been successful in the panel assemblies thereby catering to major projects in the region. The product lines include Main Distribution Board, Sub-main Distribution Board, Final Distribution Board, Auto Synchronization Panels, Capacitor banks, Changeover/ATS Panels, Socket Panels and PLC/Relay based control panels. Driven by the conviction about the huge demand and potential for Climate Control products in the Middle East, Maxell Trading LLC established itself in the UAE in August 2002. Its objective has been to play a pivotal role in the marketing of the most versatile, commercial and industrial type of Fan coil units, Air Handling Units, Cooling Towers, Humidifiers, Dehumidifiers, Ventilation Fans, Actuators, Electric Duct Heaters, Controls and Sensors. It entrenched itself in the region successfully making a tremendous difference in providing quality HVAC solutions
