Acorn Movers are a benchmark name as one of Dubai's leading international relocation and removals companies. We were first founded in UK on the principles of providing our clients professional, reliable & friendly services; we have subsequently become the preferred choice for worldwide removals by land freight, sea freight and air freight. Whether its moving home, moving offices, employee relocation, fine arts & antiques or storage, we are amongst the leading freight forwarders to handle all types of shipments safely & professionally – a rare commodity in Dubai! Moving to UK or moving to Dubai, we are present at both locations to operate a “single transaction” door to door without ever involving sub contractors. Our departments are fused together to provide a complete service. This includes professional packing and storage, crating, insurance, customs clearance and full destination services under our expert supervision. We work closely with our industry & trade organizations to keep ahead with our training program and achieving further excellence. Contact our professional, friendly and English speaking teams when you are ready to move!
